Hi Rick,

We're covering a few companies right now but try this one: CytRx Corporation.

Sample: <http://seekingalpha.com/article/1750532-cytrx-awaiting-soft-tissue-sarcoma-data-in-december>

[###-###-####], that's my cell. Call me at your convenience.

Thanks,

Tom

Hi Tom,

Thanks for the speedy email.

Can you give me any examples of the companies you cover ? Also, any past articles that I could refer to would also be useful so I can see what you expect.

Please let me know at your convenience, then I can do some follow up reading of these articles and then get back to you promptly.

Also, is there a time you might be available by phone to discuss ?

Thanks for thinking of me

Rick

Hi Rick,

Thanks for getting back to me so soon. I work for an IR firm and I have a team that I manage. So when the firm has a new client, they will ask me to start getting some articles published on various sites. And then my team will get started on it.

We typically cover biotech companies but occasionally will have some others as well.

When I give you an assignment, you will type up the draft and then send back to me so I can get the company's approval. I will send you back the edited version and then you can publish. Once published, I will pay you \$300. We send checks to our guys every 2 weeks.

Let me know if that is of interest to you.

Thanks a lot,

Tom

Hi,

I am responding to your email which you sent via SA mail.

I am always eager to hear about new ideas.

When would you like to chat ?

Thanks

Rick
